

AMS Plus

Liquid Ammonium Sulfate/Drift Retardant Solution
Helps Achieve Optimum Weed Control

- ✓ **Increases herbicide activity**
- ✓ **Sequesters and neutralizes hard water mineral ions**
- ✓ **Enhances uptake**
- ✓ **Minimizes antagonism between tank mixes**
- ✓ **Ammonium nitrogen increases effectiveness of certain herbicides**
- ✓ **Helps overcome adverse conditions**

Additional Benefits

Antifoam

Antifoaming agent in **AMS Plus** helps control foaming in the tank and is stable in high salt solutions

AMS Plus vs Competitors

Drift Control

The unique proprietary polymeric drift control agent in **AMS Plus** yields excellent drift control over a wide rate range without modifying your spray pattern.
