

**6 - 24 - 6**

**Advance** offers growers the chance to maximize yield potential from their crop by enhancing early season growth and root development.

**Advance** contains a highly-refined 6-24-6 fertilizer that gives young crop seedlings a boost of important nutrients for a strong start.

**Advance** contains a micronutrient package needed for vigor and development.

**Advance** contains a blend of natural carboxylic acids that improve nutrient solubility, availability, and uptake.

The results are a more extensive root system and increased plant vigor.

Strong root development and improved plant vigor can:

- 1) Help plants use soil nutrients more efficiently.
- 2) Lead to improved moisture absorption which helps reduce stress in dry conditions.
- 3) Facilitate earlier fruit set and maturity.
- 4) Increase the chances of reaching the highest potential yield from the crop.

**Advance** offers value for a variety of crops including: cotton, tobacco, peanuts, corn, and wheat.

**GUARANTEED ANALYSIS**

Total Nitrogen (N).....	6.00%
6.0 % Ammoniacal Nitrogen	
Available Phosphate (P <sub>2</sub> O <sub>5</sub> )....	24.00%
Soluble Potash (K <sub>2</sub> O).....	6.00%
Boron (B).....	0.02%
Iron (Fe).....	0.05%
0.05 % Chelated Fe	
Manganese (Mn).....	0.02%
0.02% Chelated Mn	
Zinc (Zn).....	0.03%
0.03% Chelated Zn	

CROP	RATE
Cotton	Apply 1 - 2 quarts per acre as an in-furrow application, mixed with starter fertilizer, or in a band over the row.
Peanuts	Apply 1 - 2 quarts per acre as an in-furrow application or in a band over the row.
Corn	Apply 1 - 2 quarts per acre as an in-furrow application, mixed with starter fertilizer, or in a band over the row.
Tobacco	Apply 1 - 3 quarts per acre in tobacco transplant water solution.
Small Grain	Apply 1 - 3 quarts per acre.
