

Advance offers value in a variety of crops including: Cotton, Tobacco, Peanuts, Corn, and Wheat.

CROP	RATE
Cotton	Apply 1-2 quarts per acre as an in-furrow application, mixed with starter fertilizer, or in a band over
Peanuts	Apply 1-2 quarts per acre as an in-furrow application or in a band over the row.
Corn	Apply 1-2 quarts per acre as an in-furrow application, mixed with starter fertilizer, or in a band over
Tobacco	Apply 1-3 quarts per acre in tobacco transplant water solution.
Small Grain	Apply 1-3 quarts per acre.

- Advance maximizes yield potential and quality by enhancing early season growth and root development.
- Advance contains a highly refined 6-24-6 fertilizer giving transplants a boost of important nutrients for a strong start.
- Advance contains a micronutrient package needed for vigor and development.
- Advance contains a blend of three natural carboxylic acids secreted by soil bacteria, fungi, and plant roots that improve solubility, availability, and uptake.

Strong root development and improved plant vigor can:

- Helps plants utilize soil nutrients more efficiently
- Lead to improved moisture absorption which helps reduce stress in dry conditions
- Facilitate earlier fruit set and maturity
- Increase the chances of reaching the highest potential yield from the crop

Results are a more extensive root system and increased plant vigor

Guaranteed Analysis

Total Nitrogen (N) (6.0% Ammoniacal Nitrogen)	6.0%
Available Phosphate (P ₂ O ₅)	24.0%
Soluble Potash (K ₂ O)	6.0%
Boron (B)	0.02%
Iron (Fe) (0.05% Chelated Fe)	0.05%
Manganese (Mn) (0.02% Chelated Mn)	0.02%
Zinc (Zn) (0.03% Chelated Zn)	0.03%
