

A Highly Effective Soil Conditioner

CarboMaxx is a highly concentrated liquid carbon soil conditioner containing Humic and Fulvic Acids. CarboMaxx is designed for direct field applications, injection into irrigation systems or an addition to liquid fertilizer starter solutions.

Benefits of CarboMaxx

- Can Be Used in All crops
- Increases crop yield
- Increases permeability of plant membranes
- Increases the uptake of nutrients
- Enhances growth of soil microorganisms
- Activates biochemical processes in plants
- Stimulates and Increases root development
- Enhances phosphate utilization of plants
- Increases Cation exchange capacity
- Stimulates plant growth
- Improves overall plant growth
- Increases chlorophyll synthesis
- Improves seed germination
- Shown to raise soil CEC 20% with 2qt/acre

Increase the quality of yields; improve their physical appearance and value.

CarboMaxx Crops

- | | |
|------------|---|
| Alfalfa | Soybean |
| corn (all) | Small Grains (wheat, oats, barley, triticale) |
| Cotton | Tobacco |
| Cucurbits | Sweet potatoes |
| Vegetables | Potatoes |
| Tomato | Pepper |
| Sorghum | |

Cation Exchange Capacity

Water Retention

Immobilizes Certain Pesticides

Higher Buffering Capacity

Use Rate: 2-4 Qts/Acre, Direct Application to Soil
 2-4 Qts/100 Gallon, Injection or Drip Irrigation
 1-2% of final solution, Starter Solution

Always read and follow product label instructions

More # 1 Sweet Potatoes

Treatment: 1 Qt/Acre Preplant
1Qt/Acre cultivation in crop

CarboMaxx benefits in Sweet Potatoes

- Shown to raise soil CEC 20% with 2 Qt/Acre
 - From 2.7 to 3.4 (samples taken 9 days after application).
- Improves Nutrient Availability and Efficiency.
- Assists in Breakdown of Crop Residue.
- Apply Directly to Soil or Crop Residue.
- Improves Nutrient Availability and Efficiency

Untreated

Treatment 2 Qt/Acre
1 Qt at Plant w/Fertilizer
1 Qt at Side dress w/Nitrogen

CarboMaxx benefits in Cotton

Treatment	Lint Yield/A	Increase over Check
Untreated	995lbs	
CarboMaxx 2 Qt/A	1045lbs	50lbs

CarboMaxx benefits in Wheat

Treatment	Yield at 13.5 %	CEC	CEC
		PRE TRT	100 days after app
2 Qt CarboMaxx	77.60 bu/A	8.6	10
Untreated	68.61 bu/A	8.6	7.5

Important: Always read and follow all label instructions before using Coastal products.
