

# Take Your Sucker Control To The Next Level

Improve coverage and run-down while killing more high position suckers

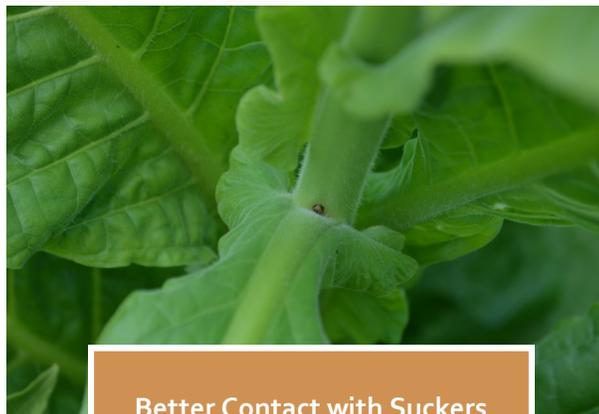

## Sucker Control Starting Stalk Position

Matrixx improves starting control an average of 1.8 stalk positions

- ◆ Improved Coverage
- ◆ Improved Run Down
- ◆ No Pooling on Leaves
- ◆ Better Contact with Suckers
- ◆ Improved Control of Hard-To-Reach Suckers

Better Contact with Suckers

- ◆ Safe and Effective
- ◆ Easy to use
- ◆ Proven Performance
- ◆ Use Rate: 4 oz/acre

By adding **Matrixx** to your existing contact sucker control program you will improve performance by killing more hard to reach suckers in the top of the plant while enhancing the run down of the spray solution achieving better and more thorough contact with suckers.
