GENERAL INFORMATION

Pre-Vent™, a VaporGrip® Xtra Agent, may be used as an additional tool to reduce volatility potential when tank mixed with dicamba. Use of **Pre-Vent™** does not replace an approved drift reduction adjuvant (DRA). **Pre-Vent™** is a volatility reducing agent but does NOT fully eliminate all volatility potential. **Pre-Vent™** does NOT control drift. Always follow the precautions, restrictions, recommended use rates, and application directions appearing on the labels for each product to be tank mixed. While the carrier is agitating, add **Pre-Vent™** to the spray tank first during the mixing and filling process.
