

Patented Design

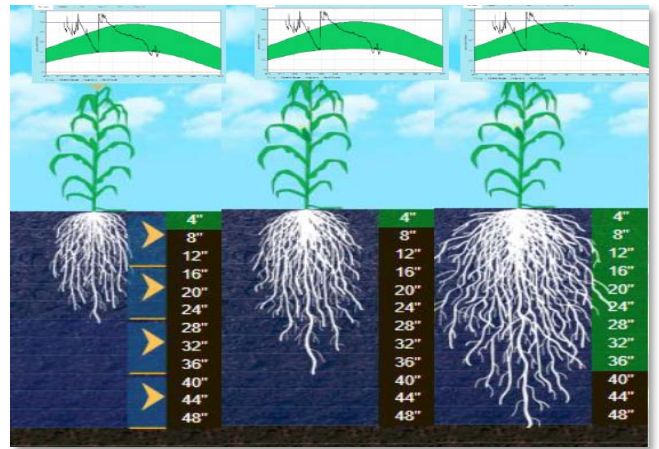

- 12 Zones
- Sensor every 4"
- 4 foot depth
- Automatic adjustments for each zone
- Pre-Calibrated
- Fully Sealed
- Vertical Orientation

Real Time Measurement

In the Root Zone:

- Moisture
- EC - Nutrients
- Temperature

Match Crop Demand with Soil Supply

Cellular Telemetry
Online Troubleshooting

Intuitive User Interface

- Simple, easy to use
- Web Based
- Algorithm Driven
- Simple Visual Indicator
- Map of Field in Use
- Current Field Status
- Monitor Performance Over Time
